PARENT/GUARDIAN

As the parent or guardian of this student, I have read and understand the school district guidelines for the use of technology at Hastings Public Schools. I understand that access to the internet is provided for educational purposes, and will promote responsible use with my son/daughter. Independent School District 200 offers students access to a variety of technology resources. The curricular use of online internet resources supports teaching and learning in our district schools. These tools could include, but are not limited to, online discussion boards, blogs, and presentation sharing technology. I grant permission for my child to use school approved online resources. For specific information about online resources used in your child's classroom, contact your child's teacher.

My child's work and image (including video) can be placed on school approved websites in accordance with the policies outlined in the [Hastings Public Schools District Webpage Guidelines](#) document. In addition, pictures may be taken for class projects, newspaper articles, yearbooks or special events which might be on TV. In some instances your child may be identified by name. I understand that I must complete the [Denial of Release of Directory Information & Student Work Form](#) if I do not want my child's image, video or student work placed on school approved websites or other related forms of media. If filed, a denial will remain in effect for the remainder of the current school year unless it is rescinded by the parent or guardian.
